LC Hen 4402 - 29th NRHU Union Beaufort West 50th WCPTA (3863 birds)

Personally, the birds that I purchased from Saville have been exceptional in terms of both racing performances and more recently, breeding. (4405 bred my Laingsburg Union winner earlier this year)

Those of you who know Saville are aware of his participation and success at the one loft races, more specifically the MDPR. Saville has also spent a fortune on acquiring these superior stock birds.

This is a genuine opportunity for any fancier to obtain some of the best stock pigeons available in the Western Cape today.

Having looked back at the statistics for the SWPC for the period 2010 – 2018, Saville Penkin and Reuben Liddell have the most Combine wins in the strong SWPC, having each won 16 Combine races (statistics up to and including the Beaufort West of 8th September). This is testimony to the quality of pigeons that will be on offer.

I would then finally like to take this opportunity to thank Saville for his contribution to my success, his massive contribution to the sport in general and we all, I know, would like to wish him a speedy recovery.
